

Important Tax Reminders

- First quarter individual estimated tax payments are due April 15.
- The deadline for filing a Form 1040 or an extension and paying any tax due is April 15.

It's estimated that as many as 80% of taxpayers have met the minimum essential health coverage and need to only check a box on their tax return. Minimum essential health coverage includes most employer-sponsored coverage and retiree plans, Medicare, Medicaid and the Children's Health Insurance Program.

The remaining taxpayers have either purchased coverage through the Health Insurance Marketplace (Exchange) or are uninsured. Taxpayers who purchased through the Exchange face a lot of paperwork and possible subsidy reimbursements or repayments. The uninsured could face penalties ranging from \$95–\$2,448 for an individual and up to \$12,240 for a family of five or more. If they're not covered in 2015, the penalty will increase to as much as 2% of their income.

If you were uninsured in 2014 or might be in 2015, there may be an exemption you can claim to avoid the penalties. Certain exemptions can be claimed on your tax return, while others must be applied for through the Exchange. Contact me to discuss your situation and I can assist you in applying for these exemptions, if applicable.

Facts About Health Care Coverage in 2015

This is the first year that taxpayers are experiencing the effects of the *Affordable Care Act* (ACA). The IRS requires taxpayers to report on their 2014 tax return whether or not their household maintained minimum essential health coverage for each calendar month of 2014. Those who failed to comply with this individual mandate may face a penalty called the "shared-responsibility payment."

March comes in like a lion and goes out like a lamb. In Wales, this proverb is applied to the month of April more often than March, especially on the borders.

Quote Corner

"It was one of those March days when the sun shines hot and the wind blows cold: when it is summer in the light, and winter in the shade."
